IMFAR Schedule

Thursday:

**Alex Ahmed (#44 106.044)** Neuroendophenotype Discovery Using An fMRI Social Battery Task.
9am- Sheraton Hall (Brain Imaging Functional: Poster Session)

**Laura Anderson (#48 106.048)** Social Responsiveness Correlates with Neural Response to Affective Touch: An fNIRS Study.
10am- Sheraton Hall (Brain Imaging Functional: Poster Session)

**Raja Pillai (#51 106.051)** Cerebellar Activation Differentiates Children with Autism and Siblings in a Static Face Processing.
10am- Sheraton Hall (Brain Imaging Functional: Poster Session)

**Avery Voos (#57 106.057)** Autistic Traits Associated with Diminished Response to Affective Touch.
10am- Sheraton Hall (Brain Imaging Functional: Poster Session)

**Roger Jou (#105 107.105)** Macrocephalic Individuals with Autism Have Increased White Matter Whereas Normocephalic Individuals with Autism Exhibit Preserved Volumes.
11am- Sheraton Hall (Brain Imaging: Resting State fcFMRI and Structural Imaging: Poster Session)

**Federica Riva (#61 106.061)** Different Brain Responses to Different Actions: A New Paradigm to Study Action Comprehension in Autism.
11am- Sheraton Hall (Brain Imaging Functional: Poster Session)

**Julie Wolf (#32 117.032)** Cognitive Profiles of Siblings of Individuals with ASD.
2pm- Sheraton Hall (Clinical Phenotype: Poster Session)

Friday:

**Nancy Wang (127.003)** Diagnostic Utility of Brain Mechanisms for Processing Biological Motion.
10:45am- Grand Ballroom West (Brain Imaging: fMRI Cognition, Motion Perception and Function, and Reward Processing)

**Ben Deen (146.003)** Large-Scale Cortical Functional Connectivity in Children with Autism Spectrum Disorders.
5:30pm- Grand Ballroom East (Disrupted Neural Circuitry in Autism)

Saturday:
**Alia Martin (164.002)** Diminished Superior Temporal Sulcus Response to Communicative Intent in Children with ASD.
1:45- Grand Ballroom East (Brain Imaging: fMRI Social Cognition and Emotion Perception)

**Randi Bennett (164.003)** Lack of Neural Specialization for Speech in Children with Autism Spectrum Disorder.
2:00pm- Grand Ballroom East (Brain Imaging: fMRI Social Cognition and Emotion Perception)

**Martha Kaiser (164.004)** Disrupted Neural Response to Affective Touch in ASD.
2:15pm- Grand Ballroom East (Brain Imaging: fMRI Social Cognition and Emotion Perception)

**Ilanit Gordon (164.008)** Oxytocin’s Impact on Social Cognitive Brain Function in Youth with ASD.
3:15pm- Grand Ballroom East (Brain Imaging: fMRI Social Cognition and Emotion Perception)
