

Printable Package Orientation Label

The label below should print with the proper dimensions for a package orientation label (minimum dimensions: 74 X 105 mm). Cut around the outside border of the label and affix it a vertical side of the box (not the top or bottom), oriented as shown below. Many printer inks run when exposed to even small amounts of water, such as rain or snow, therefore, when using this label, cover with clear plastic tape once applied to package. Either label, red and white or black and white may be used.
