Student Grant Request

Competition or Professional Event (up to \$500.00)

Grants for competitions will be awarded to students who have been invited to compete and the competition organizer is not funding the performer's expenses; funding for a Divinity related professional event will be awarded only when a student is invited to give a paper. ISM students may use any remaining balance on a Competition or Professional Event grant for other events; in this case the student should resubmit a grant request noting the remaining balance that can be applied.
