

Submitting Articles to the Journal of Industrial Ecology

Using Manuscript Central

The Journal of Industrial Ecology has adopted the Manuscript Central system of online article submission. To use this system, please visit <http://mc.manuscriptcentral.com/jie>. If you have never been an author, editor, or reviewer of a Journal of Industrial Ecology article, use the “create account” link in the top right corner of the page. As an alternative, you can click the “Register here” link just below “New User?” on the right side of the page.

Once you have completed registering, you should find yourself at Manuscript Central’s main menu. To submit an article, select the “Author Center” link. In the “Author Resources” area on the right side of the screen, select the link labeled “Click here to submit a new manuscript”. This brings you to the manuscript submission screen where you are asked to input data about the manuscript and subsequently upload the manuscript files. Note that the system is designed to have the main manuscript, the figures, and any supplementary material uploaded as separate files.
