Yale University
Graduate School of Arts & Sciences
Terminal Masters and Ph.D. Degrees Granted by Department and Program
2003-04 to 2007-08 and 5-Year Average (a)

Notes:

(a) Included here are the number of Ph.D. and terminal Master's degrees awarded for the period July 1 through June 30 of each year, and a 5-year average of the degrees awarded. A (--) indicates the program does not offer the degree. The simultaneous B.A./M.A. and B.S./M.S. awards are not counted as terminal degrees in this table.

(b) The program in Urban Education Studies was established Fall 2006.

(c) In the 1998-99 academic year, the Biology Department reorganized to form two departments: Ecology & Evolutionary Biology and Molecular, Cellular & Developmental Biology. The graduate program in Biology will continue to exist until all current students complete the program. New students will be admitted into one of the new departments.

(d) Beginning Fall 2005, the MS program in Biostatistics was changed to the MS program in Epidemiology & Public Health. The program offers two specialty fields of study: Biostatistics and Chronic Disease Epidemiology.

(e) The degree is granted in Engineering & Applied Science. The data in the shaded boxes represent the areas of concentration in which the degrees were granted. Students in the Ph.D. program are required to affiliate with one of the four engineering departments.

(f) The Ph.D. program in Nursing was established Fall 2006.
