Notes:

(--) indicates the Ph.D. program was not established; (**) indicates the Ph.D. program has been discontinued

(a) This is a mandatory combined program with another doctoral program. Only students who indicated that this is their primary program are reflected in the enrollment counts. Total enrollment (this program and the program with which it is combined) is higher.

(b) In 1998-99, the Department of Biology reorganized to form the Department of Ecology & Evolutionary Biology and the Department of Molecular, Cellular & Developmental Biology. The program in Biology will continue until all current students have completed the program. Beginning fall 1998, entering students are admitted into one of the new departments.

(c) The Ph.D. program in Nursing was established Fall 2006.
