

# Staples Purchases Corporate Express – Update

## What *will* happen?

- Starting the week of November 3rd, when you log into SciQuest, you will see a new Staples/Corporate Express logo
- Corporate Express Branded products will be substituted with Staples products in the future. Yale's recommended recycled-content paper and remanufactured toner cartridges will be among these products.

## What's *uncertain*?

- Many have asked if they can shop at a Staples store and receive Yale pricing. This will not be an option until next year, but we will have more information in the coming months. Currently, Yale pricing is available only when shopping online via "SciQuest".

## What *will not* happen?

- We will not change our recommended ordering approach; you should continue to purchase products online via SciQuest
- SciQuest Corporate Express product substitutions will not take place without first notifying Yale purchasers.
- Staples product substitutions will be of equal or better quality

We will continue to keep you informed as we learn more.
