

Thanksgiving Holiday Support for Procurement Transactions

Accounts Payable transactions processed on Wednesday, November 26, 2008 will be available in the Data Warehouse on Tuesday, December 2, 2008.

The Expense Management System (EMS) and **Web Invoice Payment (WIP)** will be available during the holiday weekend. However, payment by Accounts Payable will not be completed before Monday, December 1, 2008.

SciQuest will remain available during the holiday weekend. However, requisitions that require review and approval by central units (e.g., radioactive or hazardous materials by OEHS; requisitions requiring Purchasing approval) will not be reviewed during the holiday weekend. Also, most vendors will be closed during the holiday, so orders may not be filled until Monday.
