

What is iSupplier?

The iSupplier Portal is a self-service tool that will allow suppliers to directly access their information during the procure-to-pay lifecycle. The iSupplier Portal will be accessed via a secured website and allows suppliers to view purchase orders and invoice status, as well as maintain supplier master data such as contact information, addresses, and bank accounts.

Deployment of the iSupplier Portal will begin in September 2009 with 10 suppliers and continue with additional suppliers through February 2010.

10 Suppliers for September 2009 Deployment

- Nestle Waters North America / Poland Spring Water Co
- Airgas East Inc
- BKM Total Office
- Dell Marketing LP
- Tech Air of Connecticut Inc
- BD Biosciences
- OfficeMax Inc
- Fisher Scientific Company LLC
- Agilent Technologies
- McKesson Medical Surgical Inc

How does this impact you?
