

# MEAT MARKET: ANIMALS, ETHICS, AND MONEY

SPEAKER: ERIK MARCUS

THURS. OCT 21 AT 7 PM, WLH 208

Every generation, a book comes along that reshapes society's attitudes toward food. *Meat Market* offers the most compelling critique of animal agriculture yet set to print. In his talk, Marcus charts the decline of ethical standards in animal agriculture and offers strategies to combat cruelty that can be embraced by meat-lovers and activists alike. He shows how easy it is to fill your diet with delicious, healthy, humanely produced foods.
